

MOLLY BARKER MISSIONS

May Newsletter 2015

Dear Rope Holders,

God blessed our two Easter plays. There were two men, one in each play, who had to read their parts during the practices. But the nights of the plays, we had miracles. One did not use his paper at all, and the other one had learned the most important part by memory! There were unsaved visitors present in each program, and even when one was repeated. No, no public decisions for Christ were made, but the seed was planted. Please pray that the seed will bring forth fruit in the near future.

In May, I will be starting on the plays for Mother's Day. Yes, our's is the same day as you have it in the U.S. It is easier to get visitors to come when there is a play presented in which some of their family or friends would be having a part.

It is beginning to feel like Fall; chilly at night and early mornings, and the leaves are turning yellow and falling off their trees. I am kind'a "chicken" when it comes to cold weather. It is hard to get up out of a nice warm bed, into a cold house! Yes, I have a gas heater, but do not use it at night; otherwise, I might not "wake-up" down here.

Yes, I am "officially" retired, but help weekly in four (4) different churches; teaching children, playing the keyboard in three of them and working with the women in their services.

My right knee is still giving me trouble, but I have one hour of physical therapy every Monday-Friday, to strengthen the muscles.

May God bless us all and use us all for His Glory. *Thank you so much for your prayers and continued financial support.

Love in Christ,

Molly

P.S. –Please, continue to pray for the Lancasters. As you probably know by now, Tammy is having serious health problems and is now in Nashville, TN to consult with doctors at Vanderbilt. The doctors here did not feel they had enough experience to deal with her problem, so advised treatment in U.S.
